CGN521 STS

Professional Tabletop Microphone Set

For all kind of meetings – from houses of worship to court rooms

The CGN321 STS is based on a heavy duty table stand. Due to its heavy weight it is very well shock absorbing and holds the microphone firm on place. The slim and elegant 50cm gooseneck holds a professional condenser capsule with cardioid polar pattern (120°). The switch is extremely rugged (more than 25.000 switching cycles) and programmable to the following functions: push to talk, push to mute, push on/off, low cut on/off. The status of the microphone is displayed by an LED square.) As output the device offers a gold plated 3pin XLR socket.
